

FUSION 22

The world needs fusion energy

A hybrid event - attend virtually or in-person
at the Science Museum, London

Tuesday 18th October 2022
fusioniscoming.com

THE ONLY WAY TO A FUSION FUTURE IS TOGETHER

How will fusion change the world?
What is the path to commercial fusion?
What innovations are needed to bring this
game changing power to the grid?
What benefits could fusion R&D and spin off
technologies mean for you and your business?
What skills will we need for a fusion future?

FUSION22 brings together the whole fusion industry to
show you the incredible developments and experiments
taking place all over the world.

Choose between sessions covering everything from the
benefits and challenges of fusion energy to supply chain
opportunities and calls for innovative collaboration.

FUSION22 will:

SHOWCASE

the industry's goals, vision and achievements

CELEBRATE

recent global developments in fusion

PROMOTE

fusion as an essential future energy source

EDUCATE

to raise awareness and understanding

INFORM

supply chain, adjacent industries and stakeholder groups of the challenges and opportunities being created

FOSTER COLLABORATION AND INNOVATION!

FUSION22 has been created for:

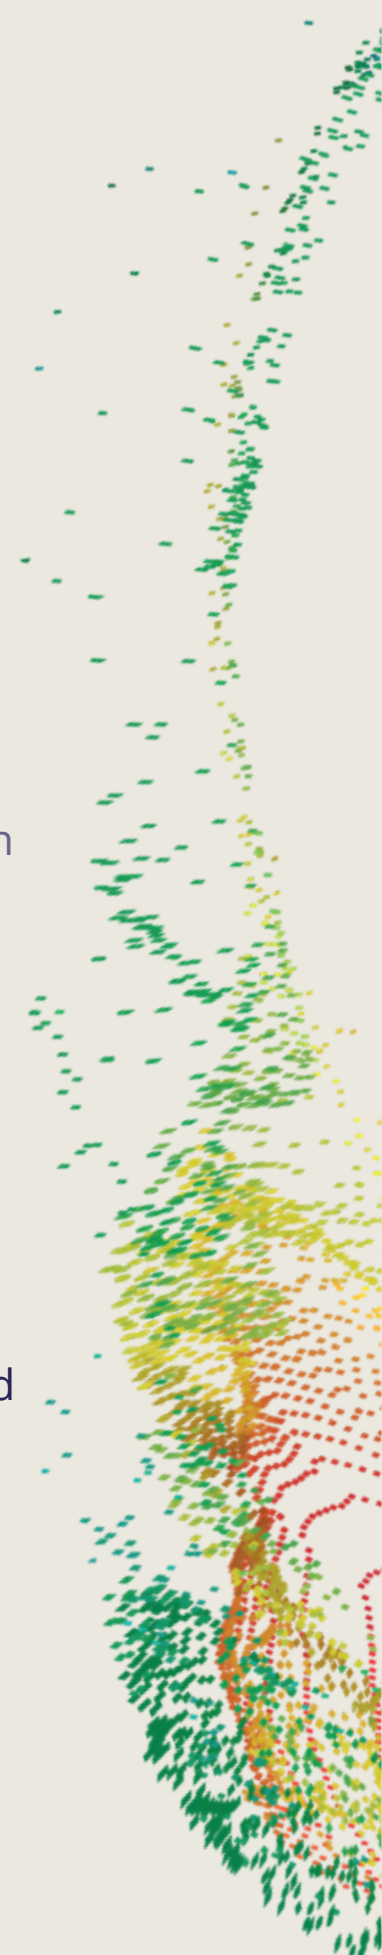

Adjacent industries and technologies
The innovation community
Government representatives
Infrastructure and supply chain partners
Potential investors
Research institutions, educators and those in education
Media
Members of the general public who have an interest in science, technology and engineering

FUSION22 offers:

Two live streamed theatres with key notes, panels and workshops highlighting exciting global developments, different approaches to fusion, spin off technologies and fusion careers.

Networking both in person at The FUSION22 Social and virtually via the FUSION22 platform

Opportunities to ask questions of key fusion industry experts and thought leaders

JOIN US TO ACCELERATE THE JOURNEY TOWARDS COMMERCIAL FUSION

A hybrid event - attend virtually or in-
person at the Science Museum, London
